A Card of Thanks.

Through the columns of THE HERALD we desire to extend our heart felt thanks to Mrs. Geo. Pemberton, for the motherly kindness shown to our dear child during her short stay in Midland, Texas. If we never meet on earth, we hope to meet her in heaven. May God bless and reward her in our prayer.

Mr. and Mrs. W. J. WALLIS,
Hazel Green, Ky.

In The Beginning

Of a new year, when the winter season of close confinement is only half gone, many find that their health begins to break down, that the least exposure threatens sickness. It is then as well as at all other times, and with people even in good health, that the following facts should be remembered, namely: that Hood's Sarsaparilla leads everything in the way of medicines; that it accomplishes the greatest cures in the world; has the largest sale in the world, and requires the largest building in the world devoted exclusively to the preparation of the proprietary medicine. Does not this conclusively prove, if you are sick, that Hood's Sarsaparilla is the medicine for you take?

Please mention this paper when writing.

Extend the Coal Road.

If our business men will take a proper view of the situation, they will readily see that the extension of the coal road is imperative. Should the Lexington and Eastern people build a tap line from Torrent to the Caney coal fields in Morgan county, and which, we understand, they intend doing, the immense mountain trade will go to Winchester and Lexington, and Mt. Sterling will be in the "burgoo." Naturally the trade from this extensive territory should come here, but it will never come so long as we idly sit and hold our hands while sister cities are hustling for the business. These are facts that should arrest the attention of the thoughtful, for it is only a question of a short time, we believe, until the inexhaustible coal fields east of us will be pierced by railroads, and it will be a sorry day for Mt. Sterling when she lets what naturally belongs to her go to another by her inactivity and listless indifference. — Mt. Sterling Journal.

"Keep up a good table, and take care of the ladies," said Bonaparte to one of his departing ambassadors. To keep up a good table is not so important as to keep up a good appetite. That can only be done through a good, healthy stomach and sound liver. The best corrective of a poor appetite is Ramon's Tonic Liver Pills (and Pellets). Ask your druggist about them. Only 25 cents a box, sample free.

A Satisfactory Appointment.

Claude S. Hazelrigg was on Monday appointed postmaster at this place, and will take possession as soon as his commission arrives. The appointment meets with general satisfaction. Claude is a son of the late Hon. John Tom Hazelrigg, is a popular and staunch Democrat and has the ability to successfully and satisfactorily conduct the affairs of the office. Howard Anderson, who has been acting as postmaster since the resignation of Mr. Everette, and who was his chief deputy, has been a popular and efficient public servant and we voice the sentiment of a local contemporary, in saying that it would be a graceful act on the part of the new incumbent to retain him in his old position. — Mt. Sterling Journal.

Japanese Oil is said to be the most wonderful liniment for external application that scientific chemists have yet been able to compound. Hundreds and thousands testify to this, as it has saved both life and expense. Sold at this office at 50 cents a bottle. Try it, as it is a household necessity and always "a friend in need."

James Kash wants a good paying position out of the Republican administration and is liable to get it, he thinks. His property is for rent and he is preparing to move to the capital. R. H. Holly, of color, goes from this place well endorsed for keeper of the cloak room of the house. — Mt. Sterling Advocate.

MORGAN COUNTY.

Maytown Missiles.

Mrs. James Ingram is but little better. Two of James Wilson's children have fever.

Our people have all got down to business at the commencement of this new year.

Born, to Robert Wills and wife Sunday, a fine girl. It is said Bob is not as well as could be expected.

We received posters of the extraordinary offer of two good papers for the price of one. Certainly I can send in several subscribers in the next 30 days at this offer.

Messrs. J. M. and A. B. Pieratt, of Ezel, and Mr. Taylor Caskey, of your town, commenced this morning to take an inventory of the store of the late J. C. Swango. A little over one year ago the two Mr. Pieratt's were here on the same business in the same house.

Mr. Editor, to settle a dispute, and perhaps a challenge, please state which one of our presidents drew the first \$50,000 salary per year.

[Gen. U. S. Grant, beginning with his second term as president, March 4, 1873. The amendment to the appropriation was offered by Benj. F. Butler, of Massachusetts. The amendment was adopted in the house Feb. 24, and in the senate on March 1, becoming a law just two days before taking effect.] — Editor.

WINGLESS.

BOWLING GREEN, KY., Dec. 16, 1895. To Medical Referees and County Boards of Health.

Within the last few months a number of so-called "doctors," claiming to represent cure-all concerns in Indianapolis, Chicago or Cincinnati, have made their appearance in many sections of the state, searching for the afflicted of every class—maimed, halt, deaf or blind. By plying their vocation secretly in outlying districts, moving rapidly from county to county, and by taking negotiable notes, payable outside of the state, which are at once discounted, to cut off the plea of fraud, they have attempted to avoid prosecution, and so far have usually succeeded.

Reports coming to this office indicate that thousands of dollars are being taken from our people every month in this way, and generally from afflicted families least able to bear the loss. One of these fellows was convicted in Grant county last week, and warrants will be taken out for others within the next few days.

I write to ask you to be on the lookout for them in your county, and to take out warrants for them whenever evidence can be obtained. They can be easily convicted whether they or the home concern get the money. As a warning to the afflicted it may be well for you to have this letter printed in your county paper.

Very respectfully,
J. N. MCCORMACK, M. D., Sec'y.

Hood's Sarsaparilla Purifies the Blood and Restores Health.

Mr. F. W. Stowell
Wilmet, S. Dak.

"C. I. Hood & Co., Lowell, Mass.:

"About four years ago my wife was troubled with salt rheum. Although we tried nearly everything it got worse instead of better and spread over both of her hands so that she could hardly use them. Finally she commenced to use Hood's Sarsaparilla and when she had taken two bottles her hands were entirely healed and she has not since been troubled. In December, 1892, my neck was covered with boils of a Scrofulous Nature.

There were sixteen of them at once and as soon as they healed others would break out. My neck finally became covered with ridges and

scars. I then commenced taking Hood's Sarsaparilla, and after taking four bottles the boils had all healed and the scars have disappeared. I recommend Hood's Sarsaparilla to all suffering from any disorder of the blood." F. W. McWILL, Wilmet, South Dakota.

The Morehead Advance, with the onliest Will Schooler as associate editor, chief of the job printing department and general whooper-up, lies before us. The Advance is all right; it is bright, new and typographically neat and it is right in the "push" when it comes to originality. Billy Schooler is nothing if not original, and is one of those versatile geniuses that are a treasure to a country paper. Prof. Riley does the "heavies" and his editorials are bright and readable. With two such able men at its helm, the Advance cannot fail to meet with such substantial encouragement and patronage as it worthily deserves, and we predict for it an era of uninterrupted prosperity. Who knows but that some day Riley, Schooler and the Advance will become as famous as Uncle Spencer Cooper and the HAZEL GREEN HERALD? — Mt. Sterling Journal.

ACADEMY NOTES.

The Academite is so busy he cannot find time to give the names and address of all new matriculates. He will do that next week.

New pupils have been matriculating by the dozens since the holidays. More have enrolled thus far than for the same time of any preceding session, and of the total enrollment there has only been a loss of two pupils since September, '95, viz; Misses Minnie Dye and Margaret AL. bright, both of whom have moved from the county. Where is there a school that can show a better per cent of attendance upon the total enrollment? The Home is fast filling with boarders and within a few weeks there will be the greatest number of pupils there in its history. More anon. ACADEMITE.
